

## Topic Geography

We will be exploring seasonal changes of summer as well as exploring different countries from our classroom. We will learn about similarities and differences between countries and how to use a map.

## History

Children will learn about a variety of artists from the past.

## Art & Design

We will be learning about different artists and ways of creating abstract art, including collage. Children will also learn how to complete simple weaving activities and experience using a needle and thread to sew a butterfly shape. Children will use a range of materials to make simple percussion, wind or stringed instruments.

## What are We Learning in Reception during the Summer Term?

### Religious Education

Children will begin to understand that different people have different beliefs. Know what my own belief is and places in my community that are important to me and my family. We will learn more about how people celebrate Eid.

### Design Technology

We will also be making some fruit kebabs in design technology.

### PE

Children will learn ball skills, controlling and passing a ball and playing some simple throwing/catching and ball games. We will also begin to learn some competitive athletic events in preparation for Sports Day.

### Science

We will continue to learn about lifecycles of different living things (continuing on from our learning about plants and humans)

We will learn about mini beasts; habitats, identifying and classifying.

### PSHE/RSE

Children will learn all about building positive and healthy relationships; learning about falling out with friend, bullying and how to be a good friend.

We will also explore what we would like to happen in our future and moving onto Year 1

### Music

Children will be learning about a range of different string, percussion and wind instruments.

Children will learn to play instruments to the beat of music and enjoy listening to some funk music.
