

Geography

In Geography children will be learning about the weather. They will learn the difference between human and physical geography. They will learn to identify different weather symbols as well as looking at the different seasons and when they change.

History

The children will be learning about significant monarchs from the past such as, King Henry VIII and Elizabeth II, they will also learn about the reasons why they are so significant.

Art & Design

The children will learn about 3D sculpture of African animals, this will link with Geography. We will learn different techniques such as rolling paper and different textures to see how this makes them look 3D.

Design Technology

In DT the children will learning about wheels and axels. They will explore mechanisms on wheels and axels. They will design and create their own pull along toy. The children will also be learning how to make fruit infused water.

What are We Learning in Year 1/2 during the Autumn Term?

Computing

In year 1 the children will be learning to familiarise themselves with the keyboard and begin practising typing. In year 2 children will explore how music makes them feel, explore rhythms and use patterns to make music.

PSHE/RSE

Children will be learning about different relationships. They will learn to identify different members of the family, why it's important to co operate with each other. They will also learn that there are different types of families.

PE

This term the children will learn how to show readiness when trying to catch the ball. They will learn how to play team games and how to position themselves to get the ball in the net.

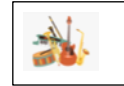

Science

This term the children will learn about plants. They will learn about the different parts of a plant and learn to label them correctly. They will learn about the function of the different parts of a plant and the common names of them in the local environment. They will compare the difference between different types of trees and learn why they are different from one another.

They will also learn about a variety of fruits and vegetables and what makes them different. They will learn about potatoes, how we grow them and what form we eat them in.

Music

In Music children will be listening to and learning a song about friendship. They will learn how to use different instruments and play them during the correct parts of the song. The children will also learn to treat the instruments with respect.

Religious Education

This term in RE the children will continue learning about stories and the importance of them. They will also learn about what people can learn from stories and festivals. We will look at a range of different religious narratives and explore why they are important to people of different faiths. We will also explore what kinds of stories the children hear at home and what they mean to them.
